

# INTEX-A/ICARTT Schedule

- **INTEX-A mission (7/1-8/14, 2004)**
- **BCO: J-31/R. Brown/Chebogue Pt. workshops (3/2005)**
- **VB: INTEX-A/DC-8 workshop (3/29-4/1, 2005)**
- **BCO: NENA/P-3 workshop/ (4/11-13, 2005)**
- **NH: ICARTT workshop (8/8-11, 2005)**
  - **Develop themes/ harmonize conclusions**
- **Presentations/publications**
  - **2005 AGU fall meeting**
  - **Publications January 1, 2006 and beyond**

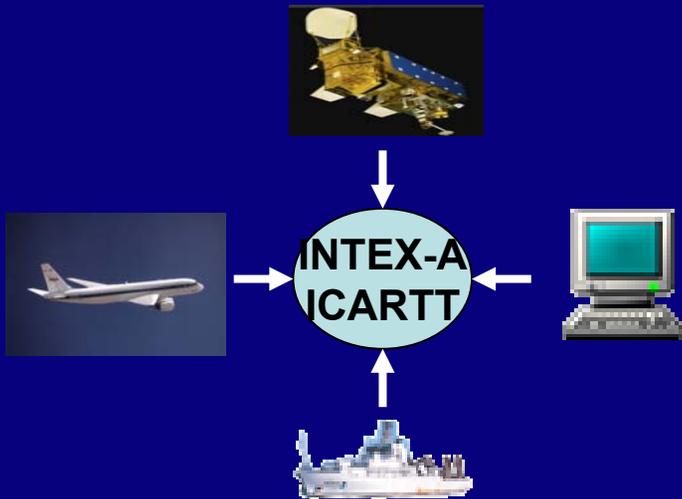

# Workshop Agenda Outline

- **Overview presentations (Tuesday AM)**
  - **INTEX-A/ICARTT**
- **INTEX-A PI presentations (Tuesday PM-Wednesday)**
  - **Airborne measurements**
  - **Satellite measurements**
  - **Surface measurements**
  - **Models & integration**
- **Working Groups (all day Thursday)**
- **Future plans (Friday AM)**

# INTEX-A Workshop Goals

- **Strategies for the maximum exploitation of INTEX-A/ICARTT data**
  - Review current analysis & manuscript plans
  - Identify avenues for fruitful collaboration
  - Identify & assess means to synthesize data from satellites, multiple AC platforms, & models
  - Identify publications & classify into themes
  - Identify needs for early publications
  - Identify gaps, outstanding problems, & make plans for addressing them
- **Future activities & prospects**
  - Review INTEX-B plans
  - Discuss activities beyond INTEX-B?

# Some Things to Consider

- How well did the instruments & models perform?
- How best can we synthesize and relate data from multiple instruments & platforms?
- How do we proceed from here?
- What are our salient accomplishments?
